Laboratory Medicine and Pathology supports physicians at Mayo Clinic and elsewhere by performing testing services for diagnostic and therapeutic evaluations. More than 2,350 people working in numerous specialty laboratories staff the department.

Overview - Laboratory Medicine and Pathology - Mayo Clinic

There are a variety of positions within a clinical laboratory, and roles are based on a career ladder of academic and technical milestones. Although terminology has changed slightly over time and may vary from location to location, the main elements to a clinical laboratory team include the laboratory director, technical and general supervisors, scientists/technologists, and technicians.
