Human Cognitive Processing | John Benjamins
The cognitive approach began to revolutionize psychology in the late 1950sand early 1960's, to become the dominant approach (i.e., perspective) in psychology by the late 1970s. Interest in mental processes had been gradually restored through the work of Piaget and Tolman .

Cognitive Approach | Simply Psychology
The cognitive approach attempts to apply a scientific approach to human behaviour, which is reductionist in that it doesn't necessarily take into account such differences. However, popular case studies of individual behaviour such as HM have lead cognitive psychology to take into account ideosyncracies of our behaviour. On the other hand ...
