Evt Scooters Evt168 Electric Scooter

It produces 2kw just like most of the 50cc models but the EVT does this with zero emissions (near the rider) via a series of four sealed lead-acid batteries mounted under the seat. The scooter is almost silent, the only sound is a quiet electric whirrr when you get up some speed, but the noise of the wind is about the same volume.

EVT-168 Electric Scooter Operation Manual*****

The EVT 168 electric scooter requires four 12 Volt 50 Ah batteries (48 Volts total). The EVT 168 uses 3.00-10 tires, both front and rear. "Revisiting a classic style of sophistication, this retro model offers fashion with both elegance and functionality.

EVT 168 Scooter Parts - EVT America Scooter Parts - All ...

In general the EVT 168 electric scooter lives up to it's promises. I had a few troubles but I believe this is due to the intensive use at the limit and some coincidence. I like to ride it and intend too until it falls apart. I really think people should consider if this is not a solution for their transportation, especially for small distances.

I've been offered a 2003 EVT America
168 scooter with 1,800 miles for \$200.
The batteries are probably shot, as is the
charger. I've read that there have been
innumerable problems with this model,
but am wondering if, at \$200 (+ how
much for batteries and charger??) it is
worth picking up.
