Five-time world champion Viswanathan Anand played a game of chess with billionaire Nikhil Kamath, on Sunday, during a charity event as part of the month-long Checkmate Covid programme. However, after the chess grandmaster resigned when his opponent had just seconds left on the clock. Hours later, a flurry of reports claimed that the Zerodha co-founder had manipulated the game to register a win.

This isn't at all a duplicate. It may be that the answer appears somewhere in the answer to the overly broad linked question, but I came here with this specific question of how to change edge label positions, and for that purpose the linked "duplicate" is about as useful as any other overly complex example, which is to say, highly suboptimal. I've flagged for mod attention - no idea if that ...
