Math U See will eventually meet standards if you continue using it through all of the levels but each level is not written directly to the corresponding grade levels core standards (does that make sense?). Your first year with Math U See is more expensive because it requires you to buy the complete Universal set with the blocks for your ...

The Ultimate Homeschool Math Comparison

The main problem with gravitational storage is that it is incredibly weak compared to chemical, compressed air, or flywheel techniques (see the post on home energy storage options). For example, to get the amount of energy stored in a single AA battery, we would have to lift 100 kg (220 lb) 10 m (33 ft) to match it.
