Cancer is a type of disease where cells grow out of control, divide and invade other tissues. In a person without cancer, cell division is under control. In most tissues, healthy cells divide in a controlled way and copy themselves to create new healthy cells. With cancer, this normal process of cell division goes out of control. Cells change their nature because mutations have occurred in their ...

New Delhi: The supply price of Covaxin to the government of India at Rs 150 a dose is a non-competitive price and clearly not sustainable in the long run. Hence a higher price in private markets is required to offset part of the costs, Bharat Biotech said Tuesday. It said there are live examples of such pricing policies where Human Papilloma virus vaccine is priced for GAVI supplies at \$4.5 ...
